MAHHY'S POP-UP RUNNER · TOKYO & YOKOHAMA

You know what you want. Mahhy will go get it.

I buy store-only and pop-up exclusive anime, character and VTuber goods in the Tokyo area for fans overseas. Items are bought at the shelf price, and you see the receipt.

How it works

1. **Send your request**
   Item name, a photo or link, the shop or pop-up, and quantity. Use the template at the bottom.

2. **Get a quote and agree to the terms**
   I check availability and purchase rules, then send a quote.

3. **Payment 1: item + buying fee**
   Paid before the shopping run. Your order is confirmed once this arrives.

4. **I buy it on the next shopping run**
   Runs happen on a fixed day each week. You get photos of the item and receipt.

5. **Payment 2: packing + shipping**
   I pack and weigh your parcel, then send the exact shipping cost.

6 **Shipped with tracking**
You receive the tracking number and packing photos.

Fees

Item price Exactly what the shop charges, shown on the receipt	at cost
Buying fee Per shop, per request. Several items from the same shop count as one.	¥3,000 or 10%, if higher
Train fare Split between everyone with a request on the same run	at cost
Queue time Only when waiting in line goes beyond 1 hour	¥1,500 / hr
Packing Per box	¥500
International shipping Charged at the post office rate, see below	at cost
Payment processing fee Charged by the payment service	at cost

All prices are in Japanese yen (JPY). When you pay, the payment service shows the amount converted into your own currency.

Tip: combining several items, or items from several shops on the same run, into one box saves you the most.
